Notes:

- File Number:** refers to the Water Rights Licence number given to the well by the Saskatchewan Watershed Authority.
- Well Number:** Client reference identification number for the well.
- Well Land Location:** is the legal land location (ie. section, township, range & meridian) for the well.
- Pumping Rate:** refers to the rate at which the water is withdrawn from the well(ie. imperial gallons per minute)
- Treated / Raw:** refers to what type of water is being metered (i.e. before or after treatment)
- Distance from Pump Well:** refers to the distance (please mark feet or metres) from the pump well to each obs. well.
- Water Use:** is the volume of water pumped from the well for that particular month.
- Unit of Measure:** is the unit in which the volume of water is measured (ie. imperial gallons, us gallons, cubic metres)
- Water Level:** is the distance (please mark feet or metres) from the top of casing to the water level in the well.
- Date Measured:** is the date the water level reading(s) was taken.
- Obs.:** refers to a small diameter (i.e. 2 inch) observation well used to measure water levels typically in proximity to the production well.
- Peak Date (Communities only):** the date for which the maximum volume of water used in one day of the year was measured.
- Peak Day Amount per Day (Communities only):** the maximum volume of water used in any one day of the year.
